

Bristol School Pledges – 22 November 2017

School	Pledges				
Badminton School	Design a bin competition	Make meals out of food waste to demonstrate extent of waste	Increase all types of recycling		
Redland Green School	Litter prevention - promoting environmental clubs. Involving student leaders.	We plan to install solar panels on our new sports block which is currently being built. The power from this will power motion sensor lights in the sport block so energy is not being used if no-one is present. This will be done with the Geography Department and the Environmental Club.	Work to use less electric lights when its light. Get ceiling sky-lights to increase the natural light.	Start composting	
The Ridings Federation Winterbourne International Academy (TRFWIA)	Food waste bins	Paper recycling – encourage teachers set up paper recycling in their classes and in halls. Build a campaign to stop litter (talks and programmes). Demonstrate the problem of littler by stopping all litter collecting for a week to see how bad it gets	Experiment using the nitrogen dioxide to find out how you can use this evidence to help improve our bus services and level of air pollution. With geography and chemistry teachers	Encourage more people to get out of cars and walk (rewards), try to use buses or to walk most of the way to school. Get help from tutors at school. do a presentation to appeals to over students. Encourage health benefits.	Advertising bike mobility courses
The Castle School	More convenient recycling bins and get food recycling. Bins from Local Council	Encourage people who take the car to school to walk part of the way
