

## Reading School Pledges – 1 December 2017

School	Pledges					
<b>Highdown School</b>	Pollution studies of CO2 emissions (to be included as a practical in the Science Curriculum).	Talk to council and get more cycle lanes on the way to school and maybe money to get bikes too.				
<b>Maiden Erlegh School Reading</b>	To plant trees and for Natalie from Nature Nurture to come and talk about the silver programme for students to plant trees	Students to talk to catering to see if tap water can be used rather than plastic water bottles and to stop buying plastic cutlery in the cafeteria.	Transport ideas included Bikeability for Secondary Schools, and a school bus to help people travelling in. Host an assembly to raise awareness and use a reward system. Involve the School Council.	Ink cartridges subscription	Introduce a clothes bank with a reward system	Raise awareness of food waste, write an article for the school newsletter and run an assembly.
<b>Reading School</b>	Get an energy audit (Transition Town can help) done to see how we can become more eco-friendly and efficient. This might include adding insulation to the windows and doors and sensors to the windows, and putting solar panels on the hall roofs and the Manor House. Money for the fittings to be raised through Fayres then the funds raised through energy saving to be invested and also to contribute to the partner school in Kenya.	Develop a garden / compost	Conferences to raise awareness
